

ARTHUR STREET ELEVATION

SITE PLAN

Hill District, Pittsburgh, PA • 1995

Phased construction of 57 "For Sale" housing units for low to moderate incomes developed in conjunction with a 400 rental housing complex by a private developer and aided by the URA. As part of planning team, TAI+LEE also participated in developing Design Guidelines for the entire Crawford Square development, which included an early energy efficiency demonstration unit which later became a standard for URA housing projects.
