Site plan

Lawranceville, Pittsburgh PA • Proposed Design 2007

2,100 SF mixed use building was proposed on the edge of the main corridor of the neighborhood commercial district. The building consisted of indoor parking for tenants, commercial space on the 1st with 18 units on 2nd and 3rd floor. A distinguished rhythm was created on the long facade in order to retain the old fabric of the street which consist of 2`4 story narrow store front buildings.
